Profile

Software Developer (React / Node.js) - 1.5 years
• Built MVPs to production in weeks, deploying via **AWS, Firebase** & GitHub Actions **CI/CD.**
• Successfully launched **3 client-facing products** with **over 3,400 organic sessions** across **27 countries.**
• Strong interpersonal and leadership skills developed through prior experience as an **educator and team coordinator.**

Professional Experience

Software Developer | Self-Employed | "Oct 2024 – Present"

- Developed multiple portfolio-grade web and mobile projects using React, React Native, Node.js, and deployed via AWS and Firebase.
- Built projects and landing pages for small business owners

Full-stack Developer Intern | Real Time Group, Tel Aviv | "Feb 2024 – Nov 2024"

- Led end-to-end development of a React.js + Node.js **e-commerce platform.**
- Built Dockerized pipelines, deployed via **AWS Elastic Beanstalk** and Git-based **CI/CD.**
- Secured platform via JWT-authentication & Winston logging.

Additional Experience

Professional Teacher & Trips Coordinator | Ministry of Education | "Sep 2019 – Aug 2023"

- Managed a $10,000 budget for school trips with 250+ students, achieving a 13% savings while ensuring their safety, and developed engaging STEM curriculum for 200+ students.

Education

Full-stack Developer Certificate "2023 – 2024" | **Real Time College**

M.A. in Technologies and Learning Development "2021 - On hold" | **The Open University**

B.A. Education "2017- 2020" | **Orot Collage**

Projects

• **SulaMeet** – Built real-time multiplayer couples' web game (React.js, Firebase) featuring multilingual support, responsive design, and secure authentication; achieved 280+ users, 20% active engagement.

• **Voucher Guide** – Developed high-impact landing page (React TypeScript, Tailwind, Firebase), organically reaching 2,700+ users in under a week through targeted social marketing.

• **Super Click** (Internship project) – Engineered full-stack e-commerce platform (React.js, Node.js, MongoDB), securely deployed via Docker and AWS Elastic Beanstalk, demonstrating robust CI/CD skills.

Skills

Front-end: React.js, Tailwind CSS, HTML, CSS3, JavaScript (ES6+), TypeScript.
Back-end: Node.js, Express.js, RESTful API, JWT Authentication, Winston (Testing), Python.
DevOps: Docker, AWS (Elastic Beanstalk), CI/CD via Netlify, Git, Github, Kubernetes.
Database: MongoDB, MySQL **Mobile:** React Native, Firebase, Expo, iOS & Android Platforms.
Soft Skills: Problem-Solving, Teamwork, Project Management.
Language: English (Fluent). Hebrew (native).
